Upsun is not responsible for any vulnerabilities relating to elements under Customer’s control.
- 5.3. Upsun may provide templates and code examples in the Documentation, public repositories, and support interactions. All Beta Features are provided "AS IS," without warranty or representation of any kind. Notwithstanding section 19 Liability, Upsun's liability for any damage arising out of or in connection with any Beta Feature is excluded in its entirety, including any obligation or liability with respect to Customer Content, except to the extent liability cannot be excluded or limited under applicable law. Customer assumes all risks associated with Customer use of a Beta Feature.
